Centre County Recycling & Refuse Authority

253 Transfer Road Bellefonte, PA 16823

Registration Fee:
$505 Member
$675 Non-Members

Overnight Accommodations

Overnight Accommodations will be listed as soon as possible.

Course Overview

This two-day class is the core course and the first step in earning the Recycling Professional Certification, and Certified Compost Professional Certification. Whether initiating a new recycling and or organics program, maintaining, and improving a current program, or starting a new position, recycling and organics professionals can expect to be met with a variety of tasks and challenges.

This course will help both beginner and experienced program coordinators develop and improve the knowledge and skills needed to implement and sustain a successful recycling and organics program from the ground up for beginning or experienced coordinators, solid waste managers, or others in related fields. Upon completion of this course, participants will receive a Penn State certificate verifying the 1.4 CEUs earned toward Recycling Professional Certification, and or Certified Compost Professional Certification.

Who Should Attend

Municipal, county, state, and recycling, organics, and waste professionals from the commercial, public and private industries who are interested in recycling, organics, and waste industries, and those interested in obtaining or maintaining their professional certification. The Recycling 101 Course is a required course for both the Certified Recycling Professional (CRP) Certification and the Certified Compost Professional (CCP) Certification.
