

## Recycling 105: Establishing & Enhancing a Program | .35 CEU

## Recycling 430: Buying & Using Recycled | .35 CEU

## Recycling 985: Zero Waste | .7 CEU

### Class Location & Details

**Date:**  
 May 20 -21, 2026

**Time:**  
 9:00 am - 4:30 pm (Both Days)

**Class Location:**  
 TBD

**Registration Fee:**  
 Both Days:  
 \$505 Member / \$675 Non-Member

May 20 both classes:  
 \$275 Member / \$415 Non-Member

May 20 - 105 or 430 only:  
 \$150 Member / \$275 Non-Member

May 21 – 985 only:  
 \$275 Member / \$415 Non-Member

### Overnight Accommodations

Overnight Accommodations will be shown here as soon as we get the information.

### Course Overviews

**May 20 - Recycling 105 - Establishing & Enhancing a Recycling Program:**  
 Program Managers in both newly mandated communities and those with established programs will find this course valuable in helping to understand elements that build exceptional programs. Instructors will help participants understand the importance of tailoring a program to individual needs. Participants will see the value of a unified and comprehensive education program and examine the details of collection and processing.

**May 20 - Recycling 430 – Buying & Using Recycled/Waste Reduction and Reuse:** This course provides practical, hands-on information for recycling officials, purchasing officials and using agencies on buying recycled products. This training program discusses the following topics: why buying recycled products is important, making a commitment to buy recycled, legislation and content standards, price, quality and availability of recycled products, specifications and testing and waste prevention.

**May 21 - Recycling 985 - Zero Waste:** Zero waste businesses are leading the way for Zero Waste and have diverted over 90% of their waste from landfill and incineration. Zero waste communities have adopted zero waste goals and plans to implement those goals. This course will demonstrate how zero waste can be a key part of community and business sustainability plans and help contribute to reducing greenhouse gases and global warming.

### Who Should Attend

Municipal, county, state, and recycling and waste personnel from the commercial, public and private industries who are interested in recycling and those interested in obtaining or maintaining their certification.
